# WALL STREET

Wall Street offers a mix of different styles and grades. Many of the routes are closely bolted, and the traditional climbs are well protected or with some bolts. Route length varies between 10 and 60 meters. Wall Street is facing south and is quick drying, but can get really hot. Wall Street has something for most people in every grade and style. Being roadside, Wall Street is easily accessible. Firepit and benches at the crag next to the river.

Wall Street was created during the corona pandemic, by members of Bø Klatregrupper; Laurits, Jonas, Kasper, Mads, Laurids, Mike and Rasmus.

**Getting there:**

From Bø, take Seljordsvegen to Verpe, take a right turn on to Vreimsida. Park on the plateau next to the river. Follow the road on foot 200m to the crag.

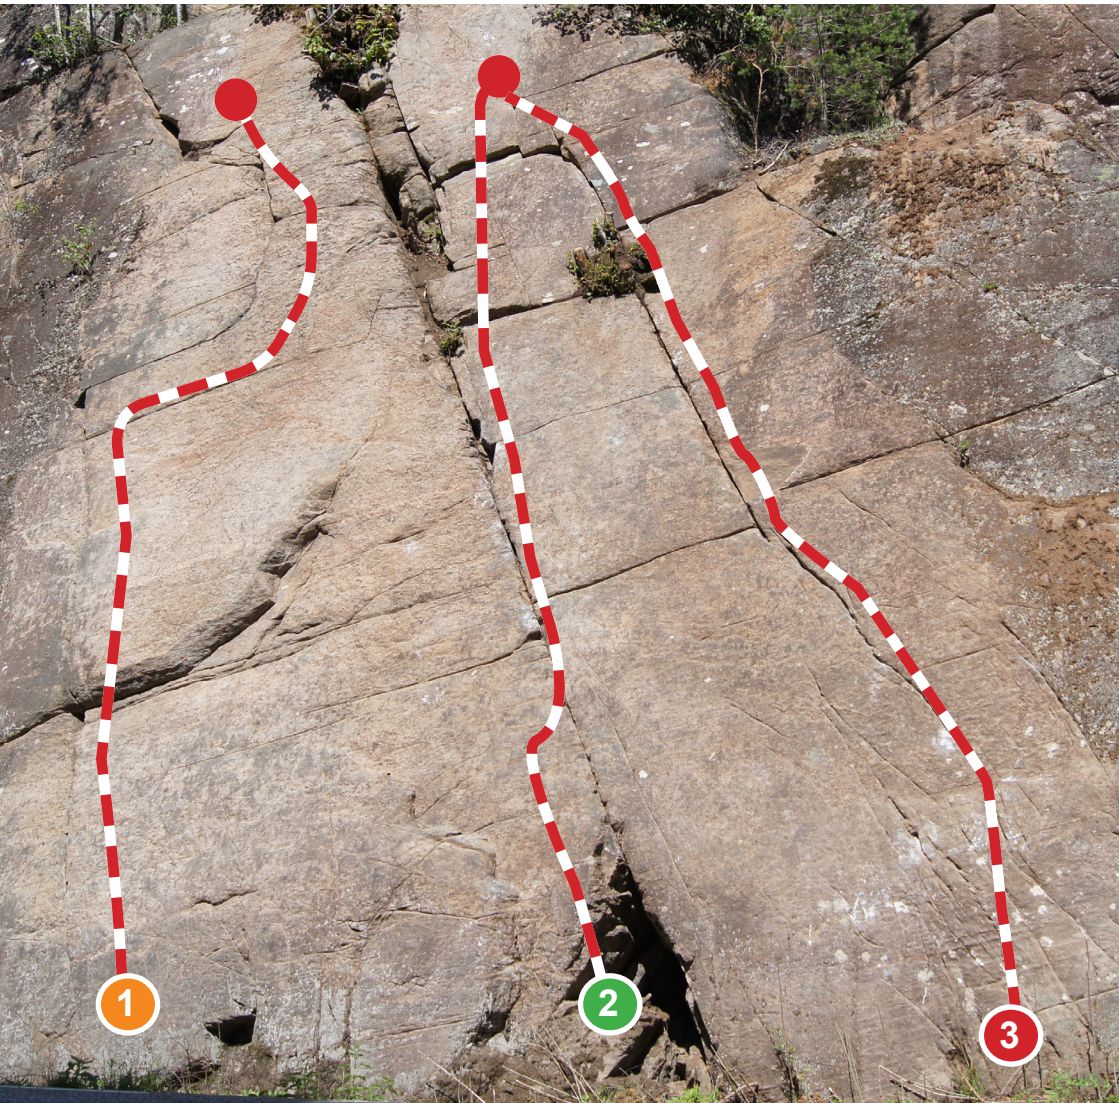

There is room for to cars in front of the crag, but make sure you are clear of the road and parked in the grass.
